The Solution

Porterful is an economic infrastructure that recirculates money back into Black communities. We build the system that gives us what we already deserve.

Money Goes OUT → Money Comes BACK

Every purchase, every stream, every tap — money recirculates back to us.

How It Works

For Artists

80%+ of every sale goes directly to creators. No labels. No middlemen.

For Superfans

Earn 3% of everything your referrals buy. Your support has real value.

For Community

Every tap, every purchase, every stream — money recirculates back.

The Superfan Economy

This turns listeners into investors. Fans into a movement. Your support stops being charity — it becomes equity.

80%

3%

SUPERFAN EARNS FROM REFERRALS' PURCHASES

How The Money Flows

STEP 1

Artist Sells Music

- Artist sets up their free storefront on Porterful
- Fan buys a track for $1.99
- Artist receives $1.59 (80%)

STEP 2

Fan Refers Another Buyer

- Superfan shares their unique link
- A new fan clicks and buys from the same artist
- Original Superfan earns 3% of every future purchase

STEP 3

Network Effect Kicks In

- The referred fan becomes a superfan too
- They refer more buyers
- Everyone in the chain earns — artists and superfans

> *"Traditional platforms: you stream, they profit. Porterful: you support, you earn."*

Why Now

Community Trust

We're organized like never before. We know what we want. We're ready to build.

Creator Economy Is Exploding

But Black creators are last to benefit. Porterful changes who gets paid.

Technology Is Accessible

NFC, QR, payments — the tools exist. The infrastructure is cheap.

We're Tired of Being Used

People are ready to support each other intentionally. We just need the system.

NOT JUST AN APP. AN ECONOMY.

We are not asking. We are building.
